

Manual Tile Cutter

This manual tile cutter is designed for cutting ceramic, porcelain, and other types of tiles. It utilizes a scoring wheel to create a clean score line, allowing for a controlled and accurate snap.

Product Overview

Professional Manual Tile Cutter

This robust and precise manual tile cutter is engineered for high-performance cutting of ceramic, porcelain, and various other tile materials. It features a reliable scoring wheel mechanism that creates clean, accurate score lines for controlled snapping. Designed with stability and ease of use in mind, the tool includes an integrated measurement guide and an ergonomic handle, making it an ideal choice for both professional tiling contractors and precision-focused DIY projects.
