

Manual Tile Cutter

This manual tile cutter is designed for precise and efficient tile cutting. Its robust sliding mechanism ensures smooth scoring and breaking of ceramic and porcelain tiles.

Overview

Professional Manual Tile Cutter

This manual tile cutter is engineered for precision, efficiency, and durability in demanding tiling projects. Featuring a robust sliding mechanism, it ensures smooth scoring and consistent breaking for both ceramic and porcelain tiles. The integrated breaking device applies uniform pressure, allowing for clean, repeatable cuts that meet professional standards.

Key Features

Cutting Capabilities

- Precise manual scoring mechanism
- Integrated tile breaking device
- Smooth sliding operation
- Suitable for ceramic and porcelain tiles

Material Compatibility

Ceramic Tiles, Porcelain Tiles
