

# Manual Tile Cutter with Dual Rail System

This manual tile cutter is designed for precise and efficient tile cutting. It features a sliding carriage on dual chrome-plated steel rails for smooth operation and accurate cuts.

## Overview

### Professional Dual Rail Tile Cutter

This manual tile cutter is engineered for precision and efficiency, featuring a robust construction suitable for both professional contractors and DIY enthusiasts. The dual chrome-plated steel rail system ensures smooth, consistent operation for accurate scoring and snapping. Designed to handle a variety of tile materials, this tool provides a clean, reliable cut every time, making it an essential addition to any tiling project kit.

## Technical Specifications

Rail System Type	Dual chrome-plated steel rails
Cutting Mechanism	Sliding carriage with scoring wheel and lever snap

## Key Features

### Operational Benefits

- Smooth sliding carriage operation
- Clean and accurate score lines
- Durable construction for long-term use
- Efficient snapping lever mechanism

Target Users	Professional Contractors, DIY Enthusiasts
