

Manual Tile Cutter with Dual Rail System

This manual tile cutter is designed for precise and clean cuts on ceramic and porcelain tiles. It features a dual rail system for smooth scoring, an adjustable measuring guide for accurate sizing, and a high-leverage breaking mechanism.

Overview

Precision Tile Cutting Solution

This manual tile cutter is engineered for professional-grade performance on both ceramic and porcelain tiles. Featuring a robust dual rail system, it ensures smooth scoring action and consistent results across various tiling projects. The durable steel base and high-leverage breaking mechanism combine to provide reliable, clean cuts, making it an essential tool for efficient tile installation.

Technical Specifications

Rail System	Dual Rail
Base Material	Durable Steel
Compatible Materials	Ceramic Tiles, Porcelain Tiles

Features

Key Features

- Smooth scoring dual rail system
- Adjustable measuring guide
- High-leverage breaking mechanism
- Ergonomic handle design

Application Type

Professional • DIY
