

Manual Tile Cutter with Scoring Wheel

This manual tile cutter is designed for accurately and efficiently cutting tiles. It utilizes a scoring wheel and breaking system, along with a sturdy base and adjustable guides for accurate, repetitive cuts.

Product Overview

Professional Manual Tile Cutter

This manual tile cutter is engineered for precise and efficient cutting of ceramic, porcelain, and various other tile materials. Featuring a robust scoring wheel mechanism and a reliable breaking system, it ensures clean, accurate cuts for both professional contractors and DIY enthusiasts. The sturdy base provides essential stability, while adjustable guides facilitate repetitive cutting tasks with ease.
