Product Overview

Professional Manual Tile Cutter

This manual tile cutter is engineered for professional-grade tile installation, featuring a robust aluminum alloy die-cast base and a high-precision chrome-plated steel single rail. The monorail sliding system, supported by six rubber-sealed ball bearings, ensures smooth and accurate scoring. With an integrated adjustable height shaft and a wide breaker foot, it provides exceptional leverage and versatility for a wide range of tiling tasks.

Construction & Materials

Base Material	Aluminum alloy die casting
Rail Material	Hard S45C steel (chrome plated)
Bearing System	6 pcs rubber sealed ball bearings

Cutting Capabilities

Scoring Wheel Material	Titanium coated tungsten carbide
Wheel Diameter	22 mm
Height Adjustment Levels	4

Features & Accessories

Breaker Foot Width	120 mm
Protractor Gauge Width	300 mm
Adjustable Side Arms Length	400 mm
