

# Marble Cutter for Stone and Tile

This marble cutter is designed for precise and efficient cutting of marble, granite, tile, and other stone materials. Its powerful motor, adjustable cutting depth, and integrated water cooling system ensure optimal performance and extended blade life.

## Overview

### Professional Stone Cutting Performance

This high-performance marble cutter is engineered for precision and efficiency when working with marble, granite, tile, and various stone materials. It features a robust motor, adjustable cutting depth, and an integrated water cooling system designed to significantly reduce dust while extending blade longevity. With an ergonomic build, it ensures comfortable handling and minimizes operator fatigue during extended use, making it an ideal choice for both professional construction sites and demanding DIY projects.

## Technical Specifications

### Key Features

- Powerful motor
- Adjustable cutting depth
- Integrated water cooling system
- Ergonomic design

### Application Suitability

Professional Use • DIY Projects

### Compatible Materials

Marble, Granite, Tile, Stone
