

Marble Cutter for Stone Fabrication

This marble cutter is designed for precise cutting of marble, granite, tile, and other stone materials. It features adjustable cutting depth and a water cooling system.

Product Overview

Professional Stone Cutting Solution

This high-performance marble cutter is engineered specifically for the precision fabrication of marble, granite, tile, and various stone materials. It features a robust motor designed for efficient, continuous operation and a durable build quality that stands up to demanding job site conditions. With an integrated water cooling system to minimize dust and prolong blade life, it provides a reliable, professional-grade solution for fabricators and installers.

Technical Specifications

Ideal For

- Professional Stone Fabricators
- Tile Installers
- Construction Workers

Compatible Materials	Marble, Granite, Tile, Stone
Cooling Mechanism	Yes
Adjustable Cutting Depth	Yes
