

Marble Cutter LK-M110

This marble cutter is designed for cutting marble, granite, tile, and other stone materials. It features a high-performance motor for efficient cutting and a durable construction for long-lasting use.

Overview

Professional Stone Cutting Performance

The LK-M110 is a robust marble cutter engineered for precision cutting of stone materials including marble, granite, and tile. Featuring a high-performance 1200W motor, this tool delivers consistent power for demanding fabrication tasks. Its design prioritizes operational efficiency and durability, making it a reliable choice for professional stone fabricators.

Technical Specifications

Rated Input Power

1200 W
Power

No-Load Speed	11000 r/min
Blade Diameter	110 mm
Max Cutting Capacity	34 mm

Electrical Requirements

Rated Voltage	110V, 220V
Frequency	50/60Hz

Logistics & Packaging

Packaging Details

Metric	Value
Pieces per Carton	6
Measurement	68x28x39cm
Net Weight	3.05kg
Gross Weight	24.3kg
