

Marble Cutting Saw Blade

This saw blade is specifically designed for cutting marble. It offers good sharpness, a long working life, and minimizes chipping during use.

Product Overview

High-Performance Marble Cutting

These precision-engineered marble saw blades are designed for efficient, clean cuts in professional stone processing applications. Engineered for durability, they deliver excellent sharpness and a long working life, while significantly reducing chipping during operation. This versatile tool is suitable for a wide range of cutting requirements.

Key Features

Performance Highlights

Good Sharpness, Long Working Life, Less Chipping

Technical Specifications

Dimensions & Specs

Parameter	Data (mm)
Outer Diameter (OD)	300, 350, 400, 450, 500
Inner Diameter (ID)	50, 60
Segment Width	2.0, 2.2, 2.4, 3.0, 3.4, 4.0
Segment Height	9 - 13

Grit Range

30# - 170#
