

Marine Air Compressor

This air compressor is designed for marine applications. It delivers compressed air for systems such as starting, service, and control air.

Product Overview

Marine Air Compression Solutions

These professional-grade marine air compressors are engineered for demanding maritime environments, providing reliable output for starting, service, and control air systems. The units feature robust multi-stage compression and efficient cooling mechanisms designed to ensure consistent performance. With a variety of models available, they offer versatile capacity options ranging from 130 to 565 cubic meters per hour to meet diverse vessel requirements.

Technical Specifications

Inventory & Performance Data

Model	Capacity (m3/h)	Pressure (bar)	Power (kW)	Speed (RPM)
H-273	196	25	45	1200
H-373	475	30	110	1800
H-374	565	25	162	1800
HC-264A	130	30	30	900
HC-265A	160	30	45	900
HC-275A	200	30	66	900
HC-277A	260	25	55	720
SHC-296D	360	30	75	720
