

Marine Anchor Capstan

This marine anchor capstan is designed for boat applications. It features a robust construction with a rope spool for efficient rope handling and secure mooring.

Overview

Marine Anchor Capstan

This marine anchor capstan is engineered for reliable anchoring and mooring operations across a wide range of vessel sizes. It features a robust construction designed to withstand harsh maritime environments, ensuring safe and controlled anchor deployment and retrieval. With versatile configuration options, this equipment supports efficient rope handling and secure mooring performance.

Capacity Range

5 kN

Min Warping Load

250 kN

Max Warping Load

Technical Specifications

Performance Data

Model	Warping Load (kN)	Warping Speed (m/min)	Wire Diameter (mm)	Motor Power (kW)
M(Y)J5	5	e18	11	3/1.2
M(Y)J10	10	e18	11	4.3/1.7
M(Y)J20	20	e18	15	7.5/7.5/5
M(Y)J30	30	e18	17.5	16/16/11
M(Y)J40	40	e18	20.5	16/16/11
M(Y)J50	50	e18	20.5	22/22/16
M(Y)J70	70	e15	26	30/30/22
M(Y)J100	100	e15	28	45/45/30
M(Y)J120	120	e15	32.5	60/60/45
M(Y)J150	150	e15	36.5	60/60/45
M(Y)J200	200	e15	40	75/75/36
M(Y)J250	250	e12	46	75/75/36

Available Drive Systems
