

Marine Bronze Globe Hose Valve

This bronze globe valve is designed for marine applications requiring fluid control. It features a hose connection for versatile installation in shipbuilding and offshore systems.

Product Overview

Marine Bronze Globe Hose Valve

This JIS Marine Bronze Globe Hose Valve is engineered for robust performance in demanding marine environments. Constructed from high-quality bronze materials, it ensures durability and corrosion resistance suitable for shipbuilding and offshore platforms. The design features a hose connection for versatile fluid control, adhering to Japanese Industrial Standards (JIS) for consistent quality.

Technical Specifications

Available Sizes

- DN15
- DN20
- DN25
- DN32
- DN40
- DN50
- DN65

Compliance Standards

JIS, Marine Grade

Materials

Material Composition

Component	Material (DN15-40)	Material (DN50-65)
Body	BC6	BC6
Bonnet	BC6	BC6
Disc	BC6	BC6
Stem	C3771BD or BE	C3771BD or BE
Handwheel	FC200	FC200
Packing Gland	-	BC6
Gasket	-	Non-Asbestos
