

Marine Diesel Engine 138-190kW

Marine diesel engine with power ranging from 138kW to 190kW. It is designed for vessel propulsion and suitable for various marine applications.

Overview

High-Performance Marine Propulsion

These marine diesel engines are engineered for reliable vessel propulsion, featuring a robust 8.3-liter, six-cylinder inline configuration. Designed for durability and efficiency, they offer a balance of power and fuel economy suitable for various marine applications. Each model is built with a heavy-duty design to ensure extended service life in demanding maritime environments.

Performance Specifications

Power & Speed Ratings

| Model | Rated Power (kW/RPM) | Max Power (kW/RPM) |
|--------------|----------------------|--------------------|
| 6CTA8.3-M188 | 138/2328 | 152/2328 |
| 6CTA8.3-M205 | 151/2328 | 166/2328 |
| 6CTA8.3-M220 | 164/1800 | 180/1800 |
