

Marine Diesel Engine Generator Set

This marine diesel engine generator set is designed for ship propulsion and auxiliary power generation. The heavy-duty, low-speed, two-stroke crosshead engine is suitable for large ocean-going vessels.

Overview

Professional Marine Power Solutions

This collection of pre-owned marine diesel engine generator sets offers reliable power generation and propulsion capability for various maritime applications. Each unit has been maintained in good condition and is ready for integration into ocean-going vessel systems. These heavy-duty sets are engineered for durability, offering consistent performance across a range of power ratings and operational frequencies.

Inventory Details

Available Engine and Generator Units

Model	Power Rating	Speed	Freq	Quantity
6L23/30	780KW/825KVA	720RPM	60HZ	2 Sets
5T23LH	533KW	720RPM	-	2 Sets
7T23LH	1082BHP	720/825RPM	60HZ	3 Sets
8T23LH	800KW	750RPM	50HZ	1 Set
7L20/27	1060KW	900RPM	-	3 Sets
6S28LH-4	1060KW/1250KVA	720RPM	60HZ	1 Set
4R32	993KW/1100KVA	720RPM	60HZ	2 Sets
