

# Marine Engine Nozzle

This nozzle is designed for marine engines. It is compatible with the 8L25BX engine model.

## Product Overview

### Professional Marine Engine Component

This high-quality marine engine nozzle is designed as a genuine spare part for specific engine configurations. Engineered for precision and durability, it ensures optimal fuel injection performance in demanding marine environments. Each package contains a set of 10 units, providing a convenient solution for routine maintenance and replacement requirements.

## Technical Specifications

Part Number	F6900224A
Engine Model Compatibility	8L25BX
Units per Package	10
Remark/Tag Reference	KKU4731-001

## Compliance and Standards

Certification & Quality	Genuine Spare Part, Marine Grade
