Product Overview

JIS Marine Globe Valve

This Marine Globe Valve is manufactured in accordance with JIS F7311 and F7319 standards, making it a reliable solution for fluid control systems in marine environments. Constructed from high-quality cast steel, the valve is engineered for durability, precise sealing, and long-term operational efficiency. Its robust design ensures performance in demanding onboard applications, providing a safe and effective shutoff mechanism.

Standards & Compliance

JIS Standards

JIS F7311, JIS F7319

Materials of Construction

Component Materials

Component	Material
Body	SC450
Bonnet	SC450
Disc	BC6 / SCS2
Valve Seat	BC6 / SCS2
Stem	C3771BD / BE / SUS403
Packing Gland	BC6
Handwheel	FC200
Gasket	Non-Asbestos

Primary Material

Cast Steel
