

Marine Immersion Survival Suit

This marine immersion suit is constructed from 5mm thick neoprene. It features an integrated buoyancy pillow, eliminating the need for an extra lifejacket.

Product Overview

High-Performance Survival Protection

This marine immersion survival suit is engineered specifically for survival in cold-water environments. Constructed from durable, waterproof neoprene, it provides essential thermal protection and integrated buoyancy for maritime safety. Designed for reliability, it features a complete coverage system including a face seal, gloves, and boots, making it an ideal lifesaving solution for ships and offshore platforms.

Technical Specifications

Applications

- Merchant ships
- Offshore platforms
- Cold water environments

Material	Waterproof Neoprene
Key Features	High-visibility, Integrated buoyancy, Thermal protection, Face seal, Integrated gloves, Integrated boots

Compliance & Safety

Safety Certification

Marine Grade • Waterproof
