

Marine Oil Purifier System

This marine oil purifier system employs Alfa-Laval separation technology. It is designed for cleaning lubricating oil and fuel oil on ships.

Overview

Industrial Marine Oil Purifier Systems

These professional-grade centrifugal oil purifiers are engineered for the rigorous demands of maritime fuel and lubrication oil cleaning. Designed for high efficiency in shipboard applications, these systems ensure the removal of impurities to maintain engine performance and longevity. Each unit is inspected and prepared for industrial integration, offering a reliable solution for fleet maintenance and operational fluid management.

Inventory Details

Available Unit Inventory

Model Series	Quantity Available
MAPX205	2
MAPX207	1
MOPX209	6
MOPX205	4
MOPX210	4
MOPX310	4
MOPX207	4
WHPX407	2
WHPX410	1
WHPX505	2
WHPX508	3
WHPX510	3

Compliance & Usage

Primary Applications

Marine Fuel Cleaning, Lubricating Oil Purification, Centrifugal Separation
