

# Masonry Cutting Saw

This masonry cutting saw is designed for cutting tiles, stone, and various masonry materials. It features a high-speed motor and diamond blade for clean, precise cuts, along with an adjustable cutting depth and angle.

## Product Overview

### Professional Masonry Cutting Solution

This compact and powerful masonry saw is engineered for precise cutting of tiles, stone, and various masonry materials. Equipped with a high-speed motor, it delivers clean, professional results for demanding applications. The tool features adjustable cutting depth and angle capabilities, ensuring versatility on the job site.

## Technical Specifications

### Input Power

**1400 W**  
Power

### Blade Diameter

- 115
- 125

### Max Cutting Capacity

Blade Size (mm)	Max Depth (mm)
115	30
125	37

### No-Load Speed

14200 RPM

## Model Information

### Model Number

KMS110S/125P

## Features

### Key Features

Adjustable Cutting Depth • Adjustable Cutting Angle • High-Speed Motor • Compact Design
