

Masonry Saw for Stone and Tile

This masonry saw is designed for cutting hard materials such as stone, brick, and tile. It features a powerful motor and a diamond blade for precise and efficient cutting.

Product Overview

Professional Masonry Cutting Solution

This high-performance masonry saw is engineered for precision cutting of hard materials, including stone, brick, and tile. Featuring a powerful 1750W motor and high-speed operation, it ensures efficient and clean cuts for professional applications. The design integrates essential safety and convenience features, such as an adjustable cutting depth and an integrated water cooling system to minimize dust and maximize blade longevity.

Technical Specifications

Compatible Blade Diameters

- 110
- 125

Max Cutting Capacity

32 mm

Capacity (110mm Blade)

39 mm

Capacity (125mm Blade)

Rated Power	1750 W
No-Load Speed	13000 RPM

Features

Key Features	Adjustable Cutting Depth, Adjustable Cutting Angle, Water Cooling System, Ergonomic Handle, Sturdy Base
Model Number	KMS110S/125I
