Product Overview

Comprehensive Cooling System Maintenance

This 27-piece master cooling system pressure tester and vacuum refill kit is designed for comprehensive testing and maintenance of automotive cooling systems. It allows for easy detection of leaks in the radiator, hoses, water pump, and engine, while the vacuum purge and refill tool enables quick and efficient coolant replacement. This kit prevents airlocks and ensures proper cooling system performance, making it an essential tool for professional mechanics and automotive service centers.

Technical Specifications

Kit Components

- Pressure testing pump with hose
- Quick coupler with pressure release
- Pressure gauge
- Blue radiator cap test adapter
- Black radiator cap test adapter
- 17-piece test cap set
- Vacuum type coolant tool
- Universal adapter
- Temperature gauge
- Blow molded storage case

Test Pressure Range

35 psi

Max Pressure

2.5 bar

Max Pressure

Compatibility

Compatible Makes

Mercedes Benz, GM, Jeep, Peugeot, Subaru, Chrysler, Acura, Mitsubishi, Nissan, Mazda, Toyota, Infiniti, Geo, Suzuki, Isuzu, Honda, Lexus, Volvo, Saab, Citroen, Renault, Fiat, Alfa, Mini Cooper, VW, BMW, Ford, Opel, Porsche, Audi
