

Masticating Juicer for Fruits and Vegetables

This juicer features a powerful motor that efficiently ejects pulp, preventing jams and clogs. Its slow motor design protects the nutritious elements, ensuring the freshest and most nutritious juice.

Product Overview

High-Efficiency Masticating Juicer

This masticating juicer is engineered for optimal nutrient extraction from a wide variety of fruits and vegetables. Utilizing a slow-speed motor design, it effectively minimizes oxidation and preserves vital enzymes, ensuring the highest quality juice. The robust, single-gear system operates quietly while preventing jamming and clogging, making it a reliable choice for consistent performance.

Performance Features

Noise Level

Quiet Operation

Performance Benefits

- Powerful motor for consistent extraction
- Automatic pulp ejection system
- Anti-jamming and anti-clogging technology
- Nutrient-preserving slow motor design

Operation Style

Slow-masticating, single-gear
