Product Overview

Professional Masticating Juicer

This masticating slow juicer is engineered for high-efficiency juice extraction from a wide variety of fruits and vegetables. Utilizing a double auger mechanism at a slow speed, it mimics hand-squeezing to maximize nutrient retention and minimize oxidation. Built with durable, food-grade materials and a powerful 200W motor, this unit is designed for reliable performance in demanding environments.

Technical Specifications

Rotation Speed

40 RPM
Min Speed

65 RPM
Max Speed

Motor Power

200 W

Voltage Range

100-240V, 50/60Hz

Design & Build

Key Components

- Heavy-duty Tritan strainer
- Tritan auger
- Tempered glass control panel

Control Interface

Waterproof soft-touch control panel

Certifications

Certifications

CE, GS, ROHS, LFGB, CB
