Product Overview

Professional Masticating Slow Juicer

This deluxe slow juicer utilizes a low-speed extrusion process to ensure minimal oxidation and zero delamination, preserving essential nutrients and natural flavors. Designed for both professional and home settings, it features a powerful DC copper motor and a user-friendly digital display for precise operation. With its durable ABS injection body and high-efficiency juicing technology, it provides a consistent, high-yield juice extraction.

Technical Specifications

Performance Metrics

330 W

Rated Power

54 rpm

Operating Speed

80 db

Noise Level

Voltage Options

- 220-240V 50-60Hz
- 100-120V 60Hz

Juice Cup Capacity

800 ml

Features

Juicing Controls

Digital Display, Low Speed Extrusion, Three Speed Control

Construction

ABS injection body with DC copper motor and rubber feet for stability

Compliance and Logistics

Certificates

ETL • CETL • CE • CB • GS • RoHS • LFGB • REACH
