Product Overview

Industrial Precision Material Cutting Saw

The TS-500A is a robust, professional-grade table saw engineered for precision cutting of diverse materials including aluminum sections and PVC. Designed for durability, it features a powder-coated sheet steel frame, a galvanized table-top, and a high-performance 4200W induction motor. With a versatile sliding table carriage, foldable legs, and integrated wheels, this machine offers an ideal balance between heavy-duty performance and mobility for professional environments.

Key Features

Foldable Legs, Sliding Table, BG Pendulum Guard, TCT Blade, Galvanized Table-top, Induction Motor
