Overview

Professional Medical Oxygen Regulation

This medical oxygen regulator is engineered for precise control and reliable delivery of oxygen therapy. Featuring a durable chrome-plated brass body and a high-visibility polycarbonate flowmeter, it ensures accurate flow adjustment from 0 to 15 LPM. Designed for safety and longevity, it includes an integrated sintered metal inlet filter and a reliable external safety relief valve, making it an essential component for hospital and clinical respiratory care.

Technical Specifications

Inlet Pressure	15 Mpa
Flow Range	0-15 LPM / 0-10 LPM
Humidifier Bottle Capacity	150 ml

Design & Construction

Body Material	Chrome-plated Brass
Gauge Lens	Polycarbonate
Inlet Filter	Sintered metal

Compliance & Safety

Safety Features

- External safety relief valve
- Sintered metal inlet filter
- Dual scale gauge

Certifications	ISO13485, CE Certified
