

Medical Waste Disposal Bag

These medical waste bags are made of air-tight PE plastic, preventing leakage. They measure 80x90 cm.

Product Overview

Professional Medical Waste Containment

These medical waste disposal bags are engineered for the safe and compliant handling of biohazardous materials in healthcare settings. Constructed from durable, air-tight polyethylene (PE) plastic, they provide a reliable barrier against leaks and contamination. Designed for hospitals, laboratories, and clinics, these bags ensure that soiled material waste is contained securely during disposal.

Technical Specifications

Material	Polyethylene (PE) plastic
Dimensions	80 x 90 cm
Leak Prevention	Yes

Compliance & Usage

Safety Features

Biohazard Symbol • Puncture-Resistant • Clear Labeling

Suitable Environments	Hospitals, Clinics, Laboratories, Healthcare Facilities
