

# Medium Pressure Gravity Feed Spray Gun

This medium pressure spray gun features a gravity-feed cup for efficient material delivery. Its adjustable fluid and air controls allow for precise customization of spray patterns and material flow.

## Product Overview

### Professional Medium Pressure Spray Gun

The R100-G is a medium pressure spray gun engineered for versatile coating applications. Featuring a gravity-feed system for efficient material delivery, this tool is designed to achieve smooth and consistent finishes. Its ergonomic construction ensures comfortable handling during extended use, making it a reliable choice for precise spray patterns and controlled material flow.

## Technical Details

Feed System	Gravity Feed
Pressure Category	Medium Pressure
Model Identifier	R-100

## Key Features

### Adjustable Controls

- Adjustable fluid control
- Adjustable air control
- Customizable spray pattern

Applications	Coating, Professional Use, DIY Projects
