

Memory Card Reader

This memory card reader is designed for efficient data transfer and storage. It is compatible with various memory card formats, ensuring versatile usage across different devices.

Product Overview

High-Performance Data Transfer

This high-performance memory card reader is engineered for efficient data transfer and reliable storage management. Built with robust construction, it is designed to withstand demanding environments while maintaining consistent performance. It serves as an ideal solution for professional photographers, videographers, and data enthusiasts who require a dependable tool for managing digital assets across multiple devices.

Technical Details

Controller Chipset	VLC5000-Q4
Chipset Origin	VIA Labs, Inc.
Production Batch Codes	2225-A1, 2337-A1

Usage & Compatibility

Recommended Users

Professional Photographers • Videographers • Data Enthusiasts

Key Features

- High-performance data transfer
- Robust construction for durability
- Multi-format memory card compatibility
- Reliable performance in demanding environments
