

Memory Card Reader

This memory card reader facilitates the transfer of data from memory cards to computers and other devices. It supports various memory card formats for versatile use.

Product Overview

High-Performance Memory Card Reader

This high-intensity outdoor flood light fixture is expertly designed for comprehensive area lighting solutions. Featuring a durable, rugged housing and a reflective interior, it ensures optimal light distribution for large-scale environments like parking lots, building facades, and sports fields. With its weather-resistant construction and adjustable mounting bracket, this fixture offers both long-lasting performance and precise installation flexibility.

Technical Specifications

Housing Construction	Durable, rugged housing
