

Mercedes A-Class Strut Bumper and Bellows Kit

This kit includes strut bumpers and bellows designed for Mercedes A-Class vehicles. The strut bumpers provide cushioning and prevent damage to the suspension system, while the bellows protect the strut from dirt, debris, and moisture.

Product Overview

High-quality strut bumper and bellows kit designed for optimal suspension protection.

High-Performance Suspension Protection

This Strut Bumper and Bellows Kit is engineered to meet strict original equipment parameters, ensuring seamless integration and performance for your vehicle's suspension system. Constructed with high-quality polyurethane and resilient rubber materials, these components provide exceptional wear and temperature resistance, performing reliably even in extreme cold down to -40°C. Designed for longevity, the kit features anti-aging properties for extended storage and has been fatigue-tested to withstand 200,000 impacts, effectively protecting your shock absorbers for up to 100,000 KM.

Technical Specifications

Materials	Polyurethane (PU), Natural Rubber (NR), Thermoplastic Vulcanizate (TPV)
Low Temperature Resistance	-40 °C
Shelf Life	3 years

Performance Metrics

Durability & Protection

200000 cycles

Fatigue Test Impacts

100000 KM

Protection Distance

18 months

Protection Duration
