

# Mercedes-Benz NTG 6.0 Camera Interface

This camera interface is designed for Mercedes-Benz NTG 6.0 systems with 10.25" screens in A-Class vehicles. It enables the integration of aftermarket cameras, providing enhanced visibility and safety features.

## ADDITIONAL IMAGES

## Overview

### Advanced Camera Integration System

This intelligent camera interface is designed to seamlessly integrate aftermarket video sources into vehicle systems equipped with 10.25-inch displays. It supports rear-view and 360-degree panoramic camera inputs, complete with dynamic parking guidelines and parking distance control. The plug-and-play installation ensures compatibility without the need for complex coding or programming, retaining original vehicle functionality.

## Compatibility

### Vehicle Compatibility

NTG 6.0 System, 10.25 inch Screen, A-Class 2018-2020
