

Mesh Bed Garden Cart

This heavy-duty garden cart is designed for hauling materials in your yard or garden. It features a durable steel frame with a mesh bed and sides to keep your items secure.

Product Overview

Heavy-Duty Utility Solution

This mesh steel garden cart is engineered for demanding tasks, boasting a robust 1100 lbs weight capacity to handle heavy loads with ease. Constructed from high-quality, fully welded iron with an anti-rust finish, this utility wagon offers exceptional durability and resistance to pressure. With removable sides for versatile loading and large 13-inch pneumatic wheels, it provides reliable maneuverability across various terrains, making it an essential tool for professional landscaping and material transport.
