

Metal Box Trailer for Tractors

This trailer is designed for use with power machinery such as tractors in agricultural and industrial settings. Constructed with a durable metal box, this trailer offers ample space for hauling various materials.

Overview

Robust Metal Box Trailer

The WY-A02 Box Trailer is a versatile and durable solution engineered for agricultural and industrial hauling tasks. Built with a sturdy metal box and a heavy-duty frame, it is specifically designed to work seamlessly with tractors and other power machinery. Its rugged tires and reliable hitch system ensure consistent performance and ease of use even when operating on challenging or diverse terrains.
