

Metal Corner Protector Bracket 41x36mm

Protective metal corner bracket designed for reinforcing corners of electronics, cases and enclosures. It features durable metal construction with pre-drilled mounting holes for easy installation and provides enhanced structural support.

Product Overview

Robust Corner Protection

This metal corner protector bracket is designed to provide essential structural reinforcement for electronic equipment, cases, and various enclosures. Featuring a durable metal construction, it effectively shields vulnerable corners from impact and wear. The design includes pre-drilled mounting holes, ensuring a straightforward and secure installation process for your hardware.
