Product Overview

High-Performance Metal Cutting Solution

This high-speed cut-off machine is engineered for efficient and precise cutting of metal workpieces in demanding environments. It features a powerful motor and a durable abrasive wheel, supported by a sturdy base for maximum stability during operation. With an adjustable workpiece clamp for accurate angle cuts and an integrated wheel guard for operator safety, it is an ideal choice for metal fabrication, construction, and general workshop applications.

Technical Specifications

Performance Metrics

14 inch

Wheel Diameter Class

Model Number

Model 14

Key Features

Core Components

- High-performance motor
- Durable abrasive wheel
- Adjustable workpiece vise/clamp
- Protective wheel guard
- Sturdy heavy-duty base

Applications

Recommended Applications

Metal Fabrication • Construction • Industrial Workshops • Precision Cutting

Safety & Compliance

Safety Equipment

Wheel Guard, Caution Labeling, Stable Work Surface
