

Metal Cut-Off Saw

This cut-off saw is designed for precise and efficient metal cutting. It features a robust motor, adjustable miter settings, and durable construction for demanding industrial applications.

Overview

High-Performance Metal Cutting Solution

The KCS355G is a powerful 2100W cut-off saw engineered for precise and efficient metal fabrication. Designed for demanding industrial applications, it features a robust motor and a 355mm blade capable of delivering clean, burr-free results on steel and aluminum. Its durable construction is complemented by safety features like a spark deflector and a quick-release vise for secure operation.

Performance

Rated Power

2100 W

Power Output

No-Load Speed

4000 RPM

Cutting Capabilities

Maximum Cutting Capacity

Material Shape	Maximum Dimension
Round Steel	130 mm (Dia.)
Square Steel	120 mm
Rectangle Steel	120 x 130 mm
Angle Steel	140 x 140 mm

Blade Diameter

355 mm

Features

Operational Features

- Quick-release vise for secure clamping
- Adjustable miter settings
- Integrated spark deflector
- Robust industrial motor

Applications

Compatible Materials

Steel, Aluminum, Non-ferrous Metals
