

Metal Cut-Off Saw

This cut-off saw is engineered for precise and efficient cutting of metal materials. It features a robust motor, durable abrasive wheel, and adjustable vise for secure workpiece clamping.

Overview

Professional Metal Cut-Off Saw

This high-performance metal cut-off saw is designed for precision and efficiency in industrial and workshop environments. It features a versatile, adjustable clamping system that allows for various cutting angles, ensuring maximum convenience for complex projects. Equipped with a durable, fiber-reinforced resin grinding wheel, it is the ideal tool for handling a wide range of metal profiles.

Cutting Capabilities

Compatible Materials

Round steel pipe, Angle steel, Round steel, Cast iron pipe, Flat steel profiles

Technical Features

Key Design Features

- Adjustable vise for secure workpiece clamping
- Robust motor for industrial performance
- Parallel grinding wheel configuration

Clamping Mechanism

Fully adjustable angle between clamp mouth and wheel shaft

Grinding Wheel Type

Fiber reinforced resin wafer
