

Metal Cut-Off Saw

This cut-off saw is engineered for precise and efficient cutting of metal and other materials. It features a powerful motor for fast cutting speeds and an adjustable fence for accurate angle cuts.

Overview

High-Performance Metal Cutting

This high-performance cut-off machine is designed for the precise and efficient cutting of metal and other industrial materials. Built with robust construction for maximum durability and stability, it features a powerful motor to ensure fast cutting speeds. The inclusion of an adjustable fence and quick-release vise allows for secure clamping and accurate angle cuts, making it an ideal tool for construction, fabrication, and metalworking applications.

Key Features

Machine Features

- Spindle lock
- Miter angle adjustment
- Controllable accuracy
- Bracket position
- Lock function

Safety & Operation

Safety Features

Spark guard, Quick-release vise, Secure clamping
