

Metal Cut-Off Saw

This cut-off saw is designed for precise and efficient metal cutting. Its robust motor and adjustable vise allow for clean, burr-free cuts on steel, aluminum, and other metals.

Product Overview

High-Performance Metal Cutting

The KCS355P is a robust 2300W metal cut-off saw engineered for precise and efficient industrial applications. It features a high-speed 4000RPM motor and a large 355mm blade diameter, making it ideal for cutting steel, aluminum, and other metals with clean, burr-free results. The durable construction and integrated safety features like the spark diversion guard ensure long-lasting performance in demanding professional environments.

Technical Specifications

Power & Performance

2300 W Input Power	4000 RPM No-Load Speed	355 mm Blade Diameter
------------------------------	----------------------------------	---------------------------------

Model Number	KCS355P
--------------	---------

Cutting Capacity

Material Cutting Capacity

Material Shape	Maximum Capacity
Round Steel	130 mm (Diameter)
Square Steel	120 mm
Rectangle Steel	120 x 130 mm
Angle Steel	140 x 140 mm

Design Features

Key Features

- Adjustable vise for secure workpiece clamping
- Spark diversion guard for enhanced operator safety
- Heavy-duty construction for industrial durability
- Ergonomic handle for controlled operation

Suitable Materials	Steel, Aluminum, Non-ferrous Metals
--------------------	-------------------------------------
