

Metal Cutting and Folding Machine

This heavy-duty machine is engineered for accurately cutting and folding metal. It offers adjustable speed settings and a user-friendly interface for efficient operation in various metal-working tasks.

Overview

Industrial Metal Processing Solution

This heavy-duty cutting and fold-bend machine is engineered for precise metal forming in demanding industrial environments. It features robust construction to ensure longevity and consistent performance across various metalworking applications. With an intuitive, user-friendly interface and adjustable speed settings, operators can achieve high accuracy and efficiency in both cutting and bending tasks.

Performance

Speed Control

Yes

Key Capabilities

Metal Cutting, Metal Folding, Metal Bending, Adjustable Speed

Construction

Build Quality

Heavy-duty • Industrial Grade
