

# Metal Cutting and Gripping Tool Set

This tool set includes a variety of metal cutting tools and tongs for shaping and gripping materials. The hardened steel tools are suitable for machining and tooling applications.

## Product Overview

### Professional Metal Cutting and Gripping Set

This comprehensive tool set is designed for precision machining and tooling applications, offering a versatile range of cutting and gripping components. Crafted from hardened steel, these tools are engineered for durability and consistent performance in demanding industrial environments. The collection includes specialized cutters and tongs, providing essential solutions for cutting, shaping, and handling metal materials effectively.

## Technical Specifications

### Tool Types Included

- Cylindrical cutters
- Cross-shaped cutters
- E-shaped cutters
- Semi-circular tongs
- U-shaped tongs
- Cylindrical tongs

### Quality Certification

Industrial Grade

<b>Material</b>	Hardened Steel
<b>Applications</b>	Metal Cutting, Material Shaping, Machining, Tooling
