

Metal Cutting Band Saw

This metal cutting band saw is designed for a wide range of applications. Its robust construction provides durability and stability during operation.

Product Overview

Versatile Metal Cutting Solution

The BS-712G is a robust metal cutting band saw engineered for precision and durability across a wide range of industrial applications. Featuring a powerful motor with variable speed control, it allows for the accurate processing of various materials including steel, aluminum, and copper. Its integrated coolant system and adjustable blade guides ensure high-quality cuts while extending the operational life of the blade.

Performance

Material Compatibility	Steel, Aluminum, Copper
------------------------	-------------------------

Technical Features

Speed Control

Variable Speed

Cooling System

Yes

Blade Guides

Adjustable for precision and extended blade life

Applications

Ideal Environments

- Metalworking shops
- Fabrication facilities
- Maintenance departments

Construction

Construction Type	Robust construction for stability during operation
-------------------	--
