

Metal Cutting Band Saw

This metal band saw is a robust machine designed for cutting various metal materials. It features an adjustable blade guide and a coolant system to ensure efficient and clean cuts.

Overview

Versatile Metal Cutting Solution

The BS-712N is a robust and versatile metal cutting band saw designed for professional workshop environments. It features a sturdy construction with a hydraulic cylinder for controlled cutting and an integrated coolant system to ensure clean, efficient results. Mounted on wheels for easy mobility, this machine combines power with convenience for various metal fabrication tasks.

Key Features

Performance Highlights

712 N

Model Series

Standard Features

- Hydraulic cylinder for controlled downfeed
- Integrated coolant system
- Adjustable blade guide
- Workpiece securing vise
- Safety switch for operator protection

Technical Specifications

Mobility

Wheel-mounted • Portable

Model Number

BS-712N

Build Quality

Sturdy construction with a blue base and white saw frame
