

Metal Cutting Bandsaw

This metal cutting bandsaw is designed for precise and efficient cutting of metal materials. It features a robust frame, adjustable cutting angle, and coolant system.

Product Overview

MODEL	MAXIMUM CUTTING WIDTH	MAXIMUM CUTTING DEPTH	MAXIMUM CUTTING LENGTH	MAXIMUM CUTTING SPEED	MAXIMUM CUTTING FEED	MAXIMUM CUTTING FORCE
MS-1000	1000mm	100mm	10000mm	100m/min	100mm/min	10000N
MS-1500	1500mm	150mm	15000mm	150m/min	150mm/min	15000N
MS-2000	2000mm	200mm	20000mm	200m/min	200mm/min	20000N

Heavy-duty metal bandsaw featuring a hydraulic cylinder for automatic stepless cutting and a quick-release vise.

Heavy-Duty Metal Cutting Bandsaw

This industrial-grade metal cutting bandsaw is engineered for precision and efficiency in metal fabrication workshops. Featuring a robust frame and a powerful motor, it provides consistent performance for various metal shapes and sizes. The machine is equipped with a hydraulic cylinder for automatic stepless cutting, a cooling system to extend blade life, and a quick-release vise for secure workpiece clamping, making it an ideal choice for professional metalworking applications.

Key Features

Core Features

Hydraulic Stepless Cutting • Cooling System • Quick-Release Vise • Adjustable Cutting Angles • Powerful Motor • Precision Worm Gear Drive
