

Metal Cutting Bandsaw

This bandsaw is designed for cutting various metal materials with precision. It features a sturdy frame, powerful motor, coolant system, and adjustable vise for secure clamping.

Overview

Versatile Metal Cutting Solution

The BS-280G is a robust and versatile metal cutting bandsaw engineered for precision and efficiency in industrial environments. It features a sturdy frame coupled with a powerful motor, making it ideal for fabrication shops and professional workshops. Integrated coolant systems and adjustable components ensure high-quality cuts while extending the operational life of the blade.

Performance Metrics

Key Performance Metrics

280 G

Model Series

Technical Features

Cooling System	Yes
Workpiece Clamping	Adjustable vise for secure material positioning
Blade Guides	Precision guides for accurate and straight cuts

Operation & Control

Control Panel

- Speed adjustments
- Feed rate control
- Easy-access emergency stop
- Integrated power controls

Applications

Intended Use

Workshops • Fabrication Shops • Industrial Applications • Metalworking

Build Quality

Frame Type	Heavy-duty sturdy frame for vibration reduction
