

Metal Cutting Circular Saw Blade

This high-speed steel circular saw blade is designed for precision cutting of metal. It features a hardened steel body for durability and resistance to wear.

Product Overview

Precision Metal Cutting Solution

This high-speed steel circular saw blade is engineered for precision cutting of various metal materials. Built with a hardened steel body, it offers exceptional durability and resistance to wear during demanding operations. The fine-toothed edge design ensures smooth, accurate cuts, making it an ideal choice for metalworking, machining, and fabrication environments where quality and precision are paramount.

Technical Specifications

Material	High-Speed Steel (HSS)
Body Type	Hardened Steel

Performance Features

Key Benefits	High Durability, Wear Resistant, Precision Cutting, Smooth Finish
--------------	---

Application

Recommended Applications

- Metalworking
- Machining
- Fabrication
