

Metal D-Grip Spading Fork

This spading fork features a robust metal head with four tines and a durable wooden handle. It also has a comfortable metal D-grip for enhanced control and leverage during gardening tasks.

Product Overview

Professional Grade Spading Fork

The Metal D-Grip Spading Fork (Model YN-F022Y) is a heavy-duty gardening tool designed for demanding soil cultivation tasks. Featuring a forged carbon steel head and a robust hardwood handle, this fork provides the necessary strength to break up compacted soil and aerate garden beds effectively. The integrated metal D-grip ensures superior ergonomic control and leverage during intensive professional or residential garden maintenance.
