

Metal Display Stand with Integrated Screen

This metal display stand features shelves and a perforated back panel. An integrated display screen at the top enhances product showcasing in retail or exhibition environments.

Product Overview

Modern Retail Display Solution

This professional-grade metal display stand is designed to elevate retail and exhibition spaces with its sleek, modern aesthetic. Featuring a durable silver finish and a perforated back panel, it offers versatile shelving options for showcasing various products. The integrated display screen at the top provides a dynamic platform for digital signage, promotional content, or product information, ensuring maximum engagement with potential customers.
